L Remarks:

The Saint Paul Fire Department responded to a report of a fire in the tuck under garage of a residential dwelling with reports of smoke and fire visible. On arrival, crews found a well involved fire in the tuck under garage with fire actively spreading up the front of the dwelling and into the attic space of a small single-story, single-family dwelling. Crews initiated simultaneous fire attack and search operations. All searches were negative (one cat was reported as missing and several searches for the cat were conducted, but the cat remains missing).

The fire was quickly extinguished, utilities were controlled (gas and electric) and a fire investigation was performed by Car20-Interim Investigator Tweed. Following the investigation, crews conducted salvage and extensive overhaul operations to include the removal of cellulose insulation from the attic space. Upon conclusion of salvage and overhaul operations, a foam washdown was completed in the attic space and garage.

One vehicle in the driveway was damaged by this fire. See exposure report.

Red Cross was contacted for four adult occupants and three dogs that were displaced by the fire. Board-up was contacted at the request of the property owners. Gas and electric were secured by Xcel.

An "After The Fire" brochure was given to the property owner, and the scene was turned over to the property owner with board up on site.
