Hi, this is Judy Heberlein, HEBERLEIN and I would like a follow up for my comments here. Also I'm calling because I just received a notification in the mail of public improvement construction. Our property address is 78 10th St. East and we are assessed for road work and I thought we just raised our taxes in the city for to improve our roads. I live in a condo and I know that our building, which is The Pointe of Saint Paul, is one of the highest taxpayers in Ramsey County. So it's a little, it's interesting because I've never received anything like this. So if you could give me a call and back and follow up. So I object to being assessed 2 times and I'm wondering where all of our tax dollars are going for road improvements. My number is 715-222-9961. I appreciate the follow up and I do appreciate all the work you're doing to create a better city for all of us. Give me a call please. Thank you.
